EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frank Morris on 11/23/04.

IN THE CLAIMS

In claim 25, line 6, after "circuit", the following has been inserted: --, wherein only one source follower circuit is selected at any one time--.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Each of the independent claims is now allowable over Shin in view of the limitation in each that only one of the circuits which provides a path between node 140 and ground (or node 150 and Vcc) is selected at any one time. This is because in Shin's Fig. 3, the four parallel paths between circuit 30 and ground (or between circuit 30 and VDD) can be active at the same time,

i.e., if any two or more of the gate voltages of FETs MP3 through MP6 is low logic at the same time).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
